

CONTRACTING AUTHORITY'S CLARIFICATIONS No. 1

Project title:
Improving the quality of education by introducing examinations at the end of secondary education

Publication reference: EuropeAid/138188/DH/SER/RS

No.	Question	Answer
1.	Under Section 21.3 (a), the Contract Notice requires that "The candidate has provided services under at least two contracts (with a value of the activities in the contract carried out by the candidate being at least EUR 1,000,000) in the field of support to education reforms". Given the wide scope of this requirement, could you please clarify whether activities in the area of vocational education would be considered as compliant as well? Could you also clarify whether capacity building activities for the institutions operating in the field of education could be considered in the context of "educational reform" as well?	Both listed activities (in the area of vocational education and capacity building activities) will be considered acceptable under Section 21.3.a), as long as they have contributed to a specific educational reform.
