

CONTRACTING AUTHORITY'S CLARIFICATIONS No.1

Project title: Improving access for persons with disability and reduced mobility to public facilities

Publication reference: EuropeAid/140688/DD/WKS/RS

IMPORTANT NOTE

As the coronavirus pandemic evolves, the Contracting Authority informs the tenderers that there will be no public opening session. However, the tender opening report will be available to all the tenderers upon request. Furthermore, due to the security measures implemented to contain the virus, the physical offers can only be opened at the earliest 24 hours after being delivered, i.e. on 31.03.2020.

Also, the Tenderers are kindly requested, due to the CPOVID-19 situation, to submit their entire tender offer also in electronic form on a USB.

No.	Question	Answer
1.	Should potential bidder deliver certificate of thermal conductivity with bid for aluminium carpentry issued by authorized domestic certification company which confirms energy efficiency for aluminium carpentry?	<p>Considering that almost all aluminium joinery products specified in the technical specifications, drawings and bill of quantities are considered as non-standard but predominantly custom made products, the thermal conductivity certificate (issued by authorized National certification authority) is not required to be submitted together with the tender proposal.</p> <p>As explained in the instructions to tenderers, Section 12.1.9, the potential bidders are requested to provide technical data sheet(s)/brochure(s), model identification number (if available) for the products indicated in Volume 1, Section 4, FORM 4.6.2b – LIST OF SUPPLIES, namely, for the following windows' types:</p> <ul style="list-style-type: none">- Type:187/129,- Type: 202/130 and- Type: 260/203. <p>Such manufacturer's technical data sheets/brochures may also be submitted for separate elements (e.g. aluminium profile, triple glass package, wood frame, hinges and handles, window sills, etc.).</p>
