

CORRIGENDUM No.1 to the Service Contract Notice

Capacity building for the alignment with the acquis in the areas of agriculture, rural development, food safety, veterinary and phytosanitary policy

Publication reference: EuropeAid/138038/DH/SER/RS

The following modifications are made to the Contract Notice:

The former text:

21(3). Technical capacity of candidate (based on items 5 and 6 of the application form). The reference period which will be taken into account will be the last five years from submission deadline.

The candidate has provided services under at least two (2) contracts (the candidate's portion equal to or greater than 1,000,000 EUR in each contract) which included developing and/or implementing at least one strategy and/or action plan or equivalent document(s) to improve legal harmonization and/or implementation capacity pertaining to any of the two fields (i.e. i and/or ii) described in item 7 in the context of integration with the EU of candidate or potential candidate countries which was implemented at any moment during the reference period.

This means that the project the candidate refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Candidates/tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, proof of final payment). In case of projects still on-going only the portion satisfactorily completed during the reference period although started earlier will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value. If a candidate/tenderer has implemented the project in a consortium, the percentage that the candidate/tenderer has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided if the selection criteria relating to the pertinence of the experience have been used.

If more than 8 eligible candidates meet the above selection criteria, the re-examination criteria shall be as follows:

- the total number of the reference projects found eligible under 21.3 and in case of equality on this criterion, then
- the value of the eligible part (the proportion carried out by the candidate) of the projects found eligible under 21.3.

Previous experience which caused breach of contract and termination by a Contracting Authority shall not be used as reference.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility – notably that of nationality – and must fulfil the same relevant selection criteria as the economic operator. With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the works or services for which these capacities are required. With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

Shall read as new text:
