1	<p>With regard to section 6 of the application form: As a consortium we have a number of applicable references which satisfy the qualifying criteria and our understanding is that to qualify only one referenced project need be over the threshold value of €400,000 (as specified in the contract notice). However, we also have a number of highly relevant references which we are keen to include but which are below this financial threshold. Therefore we are seeking clarification from you on whether these references, if they were to be submitted in section 6 of the application form, would be considered for inclusion in the scoring process?</p>	<p>Please note that the Contracting Authority is not in the position to give preliminary opinion. The Evaluation Committee will analyse the case in detail and make its decision against the published selection criteria.</p> <p>For each reference contract to be accepted, it has to fulfil all requirements specified under Art 21 3), regarding the timing, the field and the value.</p>
