1 General information

Please fill in the table.

2 The action

2.1. Description of the Action

2.1.1. Description (max 13 pages)

Provide a description of the proposed action, including all the information requested below, referring to the overall objective(s)/impact and specific objective(s)/outcome, possible intermediary outcomes, outputs described in the concept note:

- i. State how the action will improve the situation of the target groups and final beneficiaries and the technical and management capacities of target groups and/or any local co-applicants and affiliated entity(ies).
- ii. Identify and describe in detail each activity (or work package) to be undertaken to produce results, justifying the choice of activities and specifying the role of each co-applicant(s) and affiliated entity(ies) (and associates or contractors or recipients of financial support where applicable) in the activities. Do not repeat the action plan to be provided in section 2.1.3, but demonstrate coherence and consistency of project design. In particular, list any publications proposed.
- iii. If financial support is allowed by the guidelines for applicants, lead applicants wishing to give financial support to third parties must define, in line with the conditions set by the guidelines for applicants the objectives and results to be obtained with financial support, the different types of activities eligible for financial support, on the basis of a fixed list, the types of entity eligible or categories of persons which may receive financial support, the criteria for selecting these entities and giving the financial support, the criteria for determining the exact amount of financial support for each third entity, and the maximum amount which may be given.

Only for restricted calls for proposals:

- iv. Describe/highlight eventual changes of the information provided in the concept note.

2.1.2. Methodology (max 5 pages)

- iii. where the action is part of a larger programme, explain how it fits or is coordinated with this programme or any other possibly planned project (please specify potential synergies with other initiatives, in particular by the European Union);
- iv. the procedures for follow up and internal/external evaluation;
- v. the role and participation in the action of the various actors and stakeholders (co-applicant(s), affiliated entity(ies), target groups, local authorities, etc.), and the reasons why these roles have been assigned to them;

- viii. the attitudes of all stakeholders towards the action in general and the activities in particular;
- ix. the planned activities in order to ensure the visibility of the action and the EU funding.

2.1.3. Indicative action plan for implementing the action (max 4 pages)

Applicants should not give a specific start-up date for the implementation of the action but simply refer to 'month 1', 'month 2', etc.

It is recommended to base the estimated duration of each activity and the total period on the most probable duration and not on the shortest possible duration, by taking into consideration all relevant factors that may affect the implementation timetable.

The activities stated in the action plan should match those described in detail in section 2.1.1. The implementing body must be either the applicants or any of the affiliated entity(ies), associates or subcontractors. Any months or interim periods without activities must be included in the action plan and count toward the calculation of the total estimated duration of the action.

The action plan for the first 12 months of implementation should be sufficiently detailed to give an overview of the preparation and implementation of each activity. The action plan for each of the subsequent years may be more general and should only list the main activities proposed for those years. To this end, it must be divided into six-month periods (NB: A more detailed action plan for each subsequent year must be submitted before any new pre-financing payments are received under Article 4.1 of the Special Conditions of the grant contract).

2.1.4. Sustainability of the action (max 3 pages)

- ii. Describe a dissemination plan and the possibilities for replication and extension of the action outcomes (multiplier effects), clearly indicating any intended dissemination channel.
- iii. Provide a detailed risk analysis and contingency plan. This should include a list of risks associated with each proposed action, accompanied by relevant mitigation measures. A good risk analysis will include a range of risk types including physical, environmental, political, economic and social risks.
- iv. Describe the main preconditions and assumptions during and after the implementation phase.
- v. Explain how the action will be made sustainable after completion. This may include necessary follow-up activities, built-in strategies, ownership, communication plan, etc. Distinguish between four types of sustainability:
 - a. Financial sustainability: e.g. financing of follow-up activities, sources of revenue for covering all future operating and maintenance costs.
 - b. Institutional sustainability: e.g. structures that would allow the results of the action to continue to be in place after the end of the action, capacity building, agreements and local 'ownership' of action outcomes.
 - c. Policy level sustainability: e.g., where applicable, structural impact (improved legislation, consistency with existing frameworks, codes of conduct, or methods).
 - d. Environmental sustainability: what impact will the action have on the environment — have conditions been put in place to avoid negative effects on the natural resources on which the action depends and on the broader natural environment?

2.1.6. Budget, amount requested from the Contracting Authority and other expected sources of funding
