Further development of the education function of tax Administration through initial training of employees

EuropeAid/128589/C/SER/RS

Tender no: 07SER01/08/11

No	Question	Answer
1	<p>I would like to have more information on the <u>content</u> to be covered within the annual training structure of the Project? Precisely, I would like to know whether you expect the trainings to address EU and international taxation rules or the national taxation legislation already adopted in Serbia (I assume a mix of the two should be implemented). In addition, do you envisage the trainings also to address aspects of management, planning and development of a modern Tax Administration?</p>	<p>“The project is expected to provide an annual training structure for new and existing employees of the Tax Administration of the Republic of Serbia. The project will, among others: 1) prepare an annual training plan and programme, 2) prepare curricula and draw up training material, 3) implement training and 4) evaluate the training activities.”</p> <p>At this point interested parties are requested to express their interest to participate in the above mentioned tender. They will have to fulfil – among other- the technical capacity criteria referring to the published (and quoted here) description of the project.</p>
