CONTRACTING AUTHORITY'S CLARIFICATIONS

	<p>is required ? (i) and (ii), while clearly both related to waste management, are quite different activities, that need not necessarily occur in the same project. Is it necessary that both the reference projects include both (i) and (ii), or can one project cover (i) and one cover (ii), is it necessary that € 500.000 worth of activity was devoted to each of (i) and (ii) (implying a minimum contract value of € 1.000.000), to (i) and (ii) combined, or is it sufficient that the overall project value was greater than € 500.000 and that the project simply included some activity related to (i) and (ii).</p>	
2	<p>Exactly the same relate to Article 21.3)b) and items (v) and (vi) from the Contract Description</p>	<p>See answer 1</p>
3	<p>Furthermore in relation to Article 7(v) “ Training MESP and advising on a targeted communication campaign”, does “training” refer to general training, training ministry officials in general, training in waste management issues in general, or to training specifically in communications campaigns ?</p>	<p>Training is intended to capacity building of MESP in matters related to hazardous waste management.</p>
