12. **Candidature:**
All eligible natural and legal persons (as per item 11 above) or groupings of such persons (consortia) may apply. A consortium may be a permanent, legally-established grouping or a grouping which has been constituted informally for a specific tender procedure. All members of a consortium (i.e., the leader and all other members) are jointly and severally liable to the contracting authority.
The participation of an ineligible natural or legal person (as per item 11) will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.
13. **Number of applications:**
No more than 1 application can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or member of a consortium submitting an application). In the event that a natural or legal person submits more than 1 application, all applications in which that person has participated will be excluded.
14. **Shortlist alliances prohibited:**
Any tenders received from tenderers having a different composition than the ones on the application forms will be excluded from this restricted tender procedure, unless prior approval from the contracting authority has been obtained — see PRAG 2.4.3. Shortlisted candidates may not form alliances or subcontract to each other for the contract in question.
15. **Grounds for exclusion:**
As part of the application form, candidates must submit a signed declaration, included in the standard application form, to the effect that they are not in any of the exclusion situations listed in Section 2.3.3 of the 'Practical Guide to contract procedures for EU external actions'.

Selection and award criteria

21. Selection criteria:

Same criteria for legal and natural person.

The following selection criteria will be applied to candidates. In the case of applications submitted by a consortium, these selection criteria will be applied to the consortium as a whole:

1) Economic and financial capacity of candidate:

In the case of the applicant being a public body, equivalent information should be provided:

1. a) the average annual turnover of the candidate in the last 3 years (2008, 2009 and 2010) must exceed 2 000 000 EUR.

2) Professional capacity of candidate:

1. at least 20 permanent staff currently work for the candidate in fields related to this contract.

3) Technical capacity of candidate:

1. the candidate has carried out (final report approved) in the past 3 years (starting on 1.1.2008) at least 2 supervision projects (independent site supervision for the employer with the candidate's proportion greater than 1 550 000 EUR in each project) for construction/reconstruction of tunnels with a minimum length of 500 m; at least 1 of the 2 projects under FIDIC Red/Yellow Book; and at least 1 of the 2 projects with tunnel(s) constructed according to NATM.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may not be considered appropriate by the contracting authority are when the tenderers rely in majority on the capacities of other entities or when they rely on key criteria. If the candidate relies on other entities it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the contracting authority.

If more than 8 eligible candidates meet the above selection criteria, the relative strengths and weaknesses of the applications of these candidates must be re-examined to identify the 8 best applications for the tender procedure. The only factors which will be taken into consideration during this re-examination are:

the total number of the reference projects found eligible under 21-3(1), and in case of equality on this criterion, then

the value of the eligible part (the proportion carried out by the candidate) of the projects found eligible under 21-3(1).

22. Award criteria:

Best value for money.
