**Tender no: 11SER01/15/11**

No	Question	Answer
1	Point 21. 3) indicates that for re-examination, the first criterion is "the total number of the candidate's supervision contracts for construction/reconstruction under PRAG or FIDIC rules". Must this contracts comply with point 21.3)1. and 21.3)2. ?	The application of the two subcriteria only concerns those candidates that passed the selection criteria 21.3)1 and 21.3)2, therefore the re-examination of their relative strengths and weaknesses will consider those contracts already found eligible under <b>either</b> 21.3)1 or 21.3)2.
