No	Question	Answer
1.	Is there any official, project specific documentation available for the prequalification application, not only the general, renewed PRAG docs from the offered link? (If no, Web links to background info should be appreciated very much, too!)	Please note that at the prequalification phase of the procedure no further information is provided to the tenderers.
2.	Is this e-mail an acceptable way and the proper contact address to send questions and get answers according to PRAG Article 3.3.1.2., and for registrate as a candidate, to receive further similar info?	Please note that there is no need to register candidates at this stage of the procedure, all answers to clarification questions received and any additional information related to the procedure will be published on the EuropeAid website. Therefore, tenderers are kindly requested to check EuropeAid website regularly.
3.	Please clarify the technical capacity criteria in Article 21/3.: you mean 3 different project references: each of them individually have to contain all the services in lines (a);(b);(c);(d) and (e), or combination of these single services from several (more then 3, for e.g. 15) different works are also acceptable.	At least three projects (there can be more) which in combination cover all the services listed in article 7 as a), b), c), d) or e), (possibly including in addition other non-listed services), are required, providing that each of these projects is with the candidate's proportion of at least 3 500 000 EUR.
4.	What is the reason of repeating almost the same procurement notice as 2012/S 60-096517 (03apr)? Any remedies or lack of interest? (Is there any reachable official publication about this fact?)	Please see Article 5 of the Cancellation Notice (published on 17/07/2012) connected to the Tender Notice published on 27/03/2012: "The Contracting Authority decided to cancel the subject procurement procedure, since there have been irregularities in the procedure."
