CONTRACTING AUTHORITY'S CLARIFICATIONS

Publication reference: EuropeAid/133844/C/SER/RS

Project title: 'Judicial efficiency – Support to the rule of law in Serbia'.

| No | Question | Answer |
|----|--|--|
| 1 | <p>In relation to the Service Contract Notice for the tender EuropeAid/133844/C/SER/RS, we would like to kindly submit a request for clarification regarding Contract Specification. Namely, subheading '7. Contract description', presents 'Development of software' as one of the 'Fields of expertise required'. We kindly ask you to clarify whether we have to interpret 'development of software' strictly within the 'judicial efficiency'/justice sector context, or whether development of software in other fields is also eligible. We would very much appreciate the confirmation of receipt of this letter via email.</p> | <p>The field of expertise required and referred to under Article 7. Contract description as "Development of software" does not have to necessarily be gained in the area of 'judicial efficiency/justice sector'.</p> |
| 2. | <p>With regard to the above Notice, please note that XXX is interested in bidding for this Contract. For this purpose we are in the process of creating a partnership with other organizations. [...] Therefore, we would be very much obliged if you could provide official information on the eligibility of XXX to participate in this application as a consortium member.</p> | <p>The Contracting Authority cannot express a prior opinion on the eligibility of an applicant. The submitted applications will be analysed in detail by the Evaluation Committee.</p> |
