

A. INSTRUCTIONS TO TENDERERS

PUBLICATION REF.: EuropeAid/139442/IH/SUP/RS

By submitting a tender, tenderers fully and unreservedly accept the special and general conditions governing the contract as the sole basis of this tendering procedure, whatever their own conditions of sale may be, which they hereby waive. Tenderers are expected to examine carefully and comply with all instructions, forms, contract provisions and specifications contained in this tender dossier. Failure to submit a tender containing all the required information and documentation within the deadline specified will lead to the rejection of the tender. 3. Participation

- 3.1 Participation is open to all natural persons who are nationals of and legal persons (participating either individually or in a grouping – consortium – of tenderers) which are effectively established in a Member State of the European Union or in a eligible country or territory as defined under the Regulation (EU) No 236/2014 establishing common rules and procedures for the implementation of the Union's instruments for external action (CIR) for the applicable instrument under which the contract is financed (see also heading 22 of the contract notice). Participation is also open to international organizations. All supplies under this contract must originate in one or more of these countries. However, they may originate from any country when the amount of the supplies to be purchased (as a whole or, if divided into lots, per lot) is below EUR 100 000.
- 3.2 These terms refer to all nationals of the above states and to all legal entities, companies or partnerships effectively established in the above states. For the purposes of proving compliance with this rule, tenderers being legal persons, must present the documents required under that country's law.
- 3.3 The eligibility requirement detailed in sub clauses 3.1 and 3.2 applies to all members of a joint venture/consortium and all subcontractors, as well as to all entities upon whose capacity the tenderer relies for the selection criteria. Every tenderer, member of a joint venture/consortium, every capacity-providing entity, every subcontractor providing more than 10 % of the supplies must certify that they meet these conditions. They must prove their eligibility by a document dated less than one year earlier than the deadline for submitting tenders, drawn up in accordance with their national law or practice or by copies of the original documents stating the constitution and/or legal status and the place of registration and/or statutory seat and, if it is different, the place of central administration. The contracting authority may accept other satisfactory evidence that these conditions are met.
- 3.4 Natural or legal persons are not entitled to participate in this tender procedure or be awarded a contract if they are in any of the situations mentioned in Sections 2.4. (EU restrictive measures), 2.6.10.1. (exclusion criteria) or 2.6.10.1.2. (rejection from a procedure) of the practical guide. Should they do so, their tender will be considered unsuitable or irregular respectively. In the cases listed in Section 2.6.10.1. of the practical guide tenderers may also be excluded from EU financed procedures and be subject to financial penalties up to 10 % of the total value of the contract in accordance with the Financial Regulation in force. This information may be published on the Commission website in accordance with the Financial Regulation in force. Tenderers must provide declarations on honour¹ that they are not in any of these exclusion situations. The declarations must cover all the members of a joint venture/consortium. Tenderers who make false declarations may also incur financial penalties and exclusion in accordance with the Financial Regulation in force. Their tender will be considered irregular.

The exclusion situations referred to above also apply to all members of a joint venture/consortium, all subcontractors and all suppliers to tenderers, as well as to all entities upon whose capacity the tenderer relies for the selection criteria. When requested by the contracting authority, tenderers/contractors must submit declarations from the intended subcontractors that they are not in any of the exclusion situations. In cases of doubt over declarations, the contracting authority will request documentary evidence that subcontractors are not in a situation that excludes them.

- 3.5 To be eligible to take part in this tender procedure, tenderers must prove to the satisfaction of the contracting authority that they comply with the necessary legal, technical and financial requirements and have the means to carry out the contract effectively.

¹ See PRAG Section 2.6.10.1.3 A)

- 3.6 Where tenders include subcontracting, it is recommended that the contractual arrangements between tenderers and their subcontractors include mediation, according to national and international practices, as a method of dispute resolution.

4. Origin

- 4.1 Unless otherwise provided in the contract or below, all goods purchased under the contract must originate in a Member State of the European Union or in a country or territory of the regions covered and/or authorized by the specific instruments applicable to the programme specified in clause 3.1 above. For these purposes, 'origin' means the place where the goods are mined, grown, produced or manufactured and/or from which services are provided. The origin of the goods must be determined according to the relevant international agreements (notably WTO agreements), which are reflected in EU legislation on rules of origin for customs purposes: The Customs Code (Council Regulation (EEC) No 2913/92) in particular its Articles 22 to 246 thereof, and the Code's implementing provisions (Commission Regulation (EEC) No 2454/93).

All supplies under this contract must originate in one or more of the above countries.

Please be aware that after the United Kingdom's withdrawal from the EU, the rules of access to EU procurement procedures of economic operators established in third countries and of goods originating from third countries will apply to tenderers from the United Kingdom, and to all tenderers proposing goods originating from the United Kingdom depending on the outcome of negotiations. In case such access is not provided by legal provisions in force at the time of the contract award, tenderers from the United Kingdom, and tenderers proposing goods originating from the United Kingdom could be rejected from the procurement procedure.

Tenderers must provide an undertaking signed by their representative certifying compliance with this requirement. The tenderer is obliged to verify that the provided information is correct. Otherwise, the tenderer risks to be excluded because of negligently misrepresenting information. For more details, see Section 2.3.5. of the practical guide.

- 4.2 When submitting tenders, tenderers must state expressly that all the goods meet the requirements concerning origin and must state the countries of origin. They may be asked to provide additional information in this connection.

5. Type of contract

Unit-price.

6. Currency

Tenders must be presented in Euro².

7. Lots

This tender procedure is not divided into lots.

² The currency of tender shall be the currency of the contract and of payment.

8. Period of validity

- 8.1 Tenderers will be bound by their tenders for a period of 60 days from the deadline for the submission of tenders.
- 8.2 In exceptional cases and prior to the expiry of the original tender validity period, the contracting authority may ask tenderers in writing to extend this period by 40 days. Such requests and the responses to them must be made in writing. Tenderers that agree to do so will not be permitted to modify their tenders and they are bound to extend the validity of their tender guarantees for the revised period of validity of the tender. If they refuse, without forfeiture of their tender guarantees, their participation in the tender procedure will be terminated. In case the contracting authority is required to obtain the recommendation of the panel referred to in Section 2.6.10.1.1. of the practical guide, the contracting authority may, before the validity period expires, request an extension of the validity of the tenders up to the adoption of that recommendation.
- 8.3 The successful tenderer will be bound by its tender for a further period of 60 days. The further period is added to the validity period of the tender irrespective of the date of notification.

9. Language of tenders

- 9.1 The tenders, all correspondence and documents related to the tender exchanged by the tenderer and the contracting authority must be written in the language of the procedure, which is English.

If the supporting documents are not written in one of the official languages of the European Union, a translation into the language of the call for tender must be attached. Where the documents are in an official language of the European Union other than English, it is strongly recommended to provide a translation into English, to facilitate evaluation of the documents.

(a) either by post or by courier service, in which case the evidence shall be constituted by the postmark or the date of the deposit slip³

In case the tender is submitted by post or private mail service, the tenderers must inform Contracting Authority that the tender was sent and enclose a copy of the deposit slip by sending an email to address ec@mfin.gov.rs.

The Contracting Authority may, for reasons of administrative efficiency, reject any tender submitted on time to the postal service but received, for any reason beyond the Contracting Authority's control, after the effective date of approval of the evaluation report, if accepting tenders that were submitted on time but arrived late would considerably delay the evaluation procedure (for instance when tenders are received after the evaluation committee has finished its works and evaluating them would imply re-calling the evaluation committee) or jeopardise decisions already taken and notified.

10.4 All tenders, including annexes and all supporting documents, must be submitted in a sealed envelope bearing only:

- a) the above address;
- b) the reference code of this tender procedure, (i.e. EuropeAid/139442/IH/SUP/RS);

15. Alteration or withdrawal of tenders

- 15.1 Tenderers may alter or withdraw their tenders by written notification prior to the deadline for submission of tenders referred to in Article 10.1. No tender may be altered after this deadline. Withdrawals must be unconditional and will end all participation in the tender procedure.
- 15.2 Any such notification of alteration or withdrawal must be prepared and submitted in accordance with Article 10. The outer envelope must be marked 'Alteration' or 'Withdrawal' as appropriate.
- 15.3 No tender may be withdrawn in the interval between the deadline for submission of tenders referred to in Article 10.1 and the expiry of the tender validity period. Withdrawal of a tender during this interval may result in forfeiture of the tender guarantee.

16. Costs of preparing tenders

No costs incurred by the tenderer in preparing and submitting the tender are reimbursable. All such costs will be borne by the tenderer.

17. Ownership of tenders

The Contracting Authority retains ownership of all tenders received under this tender procedure. Consequently, tenderers have no right to have their tenders returned to them.

18. Joint venture or consortium

- 18.1 If a tenderer is a joint venture or consortium of two or more persons, the tender must be a single one with the object of securing a single contract, each person must sign the tender and will be jointly and severally liable for the tender and any contract. Those persons must

designate one of their members to act as leader with authority to bind the joint venture or consortium. The composition of the joint venture or consortium must not be altered without the prior written consent of the Contracting Authority.

- 18.2 The tender may be signed by the representative of the joint venture or consortium only if it has been expressly so authorised in writing by the members of the joint venture or consortium, and the authorising contract, notarial act or deed must be submitted to the Contracting Authority in accordance with point 11 of these instructions to tenderers. All signatures to the authorising instrument must be certified in accordance with the national laws and regulations of each party comprising the joint venture or consortium together with the powers of attorney establishing, in writing, that the signatories to the tender are empowered to enter into commitments on behalf of the members of the joint venture or consortium. Each member of such joint venture or consortium must provide the proof required under Article 3.5 as if it, itself, were the tenderer.

19. Opening of tenders

- 19.1 The opening and examination of tenders is for the purpose of checking whether the tenders are complete, whether the requisite tender guarantees have been furnished, whether the required documents have been properly included and whether the tenders are generally in order.
- 19.2 The tenders will be opened in public session on **17 December 2018 at 10:00 CET** at Ministry of Finance, Department for Contracting and Financing of EU Funded Programmes (CFCU), Sremska 3-5, 11 000 Belgrade, Serbia, by the committee appointed for the purpose. The committee will draw up minutes of the meeting, which will be available on request.
- 19.3 At the tender opening, the tenderers' names, the tender prices, any discount offered, written notifications of alteration and withdrawal, the presence of the requisite tender guarantee (if required) and such other information as the Contracting Authority may consider appropriate may be announced.
- 19.4 After the public opening of the tenders, no information relating to the examination, clarification, evaluation and comparison of tenders, or recommendations concerning the award of the contract can be disclosed until after the contract has been awarded.
- 19.5 Any attempt by tenderers to influence the evaluation committee in the process of examination, clarification, evaluation and comparison of tenders, to obtain information on how the procedure is progressing or to influence the Contracting Authority in its decision concerning the award of the contract will result in the immediate rejection of their tenders.
- 19.6 All tenders received after the deadline for submission specified in the contract notice or these instructions will be kept by the Contracting Authority. The associated guarantees will be returned to the tenderers. No liability can be accepted for late delivery of tenders. Late tenders will be rejected and will not be evaluated.

20. Evaluation of tenders

20.1 Examination of the administrative conformity of tenders

The aim at this stage is to check that tenders comply with the essential requirements of the tender dossier. A tender is deemed to comply if it satisfies all the conditions, procedures and specifications in the tender dossier without substantially departing from or attaching restrictions to them.

Substantial departures or restrictions are those which affect the scope, quality or execution of the contract, differ widely from the terms of the tender dossier, limit the rights of the

Contracting Authority or the tenderer's obligations under the contract or distort competition for tenderers whose tenders do comply. Decisions to the effect that a tender is not administratively compliant must be duly justified in the evaluation minutes.

If a tender does not comply with the tender dossier, it will be rejected immediately and may not subsequently be made to comply by correcting it or withdrawing the departure or restriction.

20.2 Technical evaluation

After analysing the tenders deemed to comply in administrative terms, the evaluation committee will rule on the technical admissibility of each tender, classifying it as technically compliant or non-compliant.

The minimum qualifications required (see selection criteria in contract notice point 16) are to be evaluated at the start of this stage.

- 20.3 In the interests of transparency and equal treatment and to facilitate the examination and evaluation of tenders, the evaluation committee may ask each tenderer individually for clarification of its tender including breakdowns of prices, within a reasonable time limit to be fixed by the evaluation committee. The request for clarification and the response must be in writing, but no change in the price or substance of the tender may be sought, offered or permitted except as required to confirm the correction of arithmetical errors discovered during the evaluation of tenders pursuant to Article 20.4. Any such request for clarification must not distort competition. Decisions to the effect that a tender is not technically compliant must be duly justified in the evaluation minutes.

20.4 Financial evaluation

- a) Tenders found to be technically compliant will be checked for any arithmetical errors in computation and summation. Errors will be corrected by the evaluation committee as follows:
- where there is a discrepancy between amounts in figures and in words, the amount in words will be the amount taken into account;
 - except for lump-sum contracts, where there is a discrepancy between a unit price and the total amount derived from the multiplication of the unit price and the quantity, the unit price as quoted will be the price taken into account.
- b) Amounts corrected in this way will be binding on the tenderer. If the tenderer does not accept them, its tender will be rejected.
- c) Unless specified otherwise, the purpose of the financial evaluation process is to identify the tenderer offering the lowest price.

20.5 Variant solutions

Variant solutions will not be taken into consideration.

20.6 Award criteria

The sole award criterion will be the price. The contract will be awarded to the lowest compliant tender.

21. Notification of award

The Contracting Authority will inform all tenderers simultaneously and individually of the award decision. The tender guarantees of the unsuccessful tenderers will be released once the contract is signed.

22. Signature of the contract and performance guarantee

- 22.2 The successful tenderer will be informed in writing that its tender has been accepted (notification of award). Upon request of the Contracting Authority and before the signature of the contract with the successful tenderer, the successful tenderer shall provide the **documentary proof** or statements required under the law of the country in which the company (or each of the companies in case of a consortium) is effectively established, to show that it is not in any of the exclusion situations listed in Section 2.6.10.1. of the practical guide. This evidence or these documents or statements must carry a date not earlier than one year before the date of submission of the tender. In addition, a statement shall be provided that the situations described in these documents have not changed since then.

For contracts with a value of less than EUR 300 000, the Contracting Authority may, depending on its assessment of the risks, decide not to require proofs for selection criteria.

- 22.3 Upon request of the Contracting Authority, the successful tenderer shall also provide evidence of financial and economic standing and technical and professional capacity according to the selection criteria for this call for tenders specified in the contract notice, point 16. The documentary proofs required are listed in Section 2.6.11. of the practical guide.

The Contracting Authority may, depending on its assessment of the risks, decide not to require proofs for financial and economic standing and technical and professional capacity.

- 22.4 If the successful tenderer fails to provide the documentary proof or statement or the evidence of financial and economic standing and technical and professional capacity within 15 calendar days following the notification of award or if the successful tenderer is found to have provided false information, the award will be considered null and void. In such a case, the Contracting Authority may award the tender to the next lowest tenderer or cancel the tender procedure.

The Contracting Authority may waive the obligation of any tenderer to submit the documentary evidence referred to above if such evidence has already been submitted for the purposes of another procurement procedure, provided that the issue date of the documents does not exceed one year and that they are still valid. In this case, the tenderer must declare on his/her honour that the documentary evidence has already been provided in a previous procurement procedure and confirm that his/her situation has not changed.

Documentary evidence of the financial and economic capacity and/or of the technical and professional capacity according to the selection criteria specified in point 16 of the contract notice shall be submitted. (See further Section 2.6.11. of the practical guide).

By submitting a tender, each tenderer accepts to receive notification of the outcome of the procedure by electronic means. Such notification shall be deemed to have been received on the date upon which the Contracting Authority sends it to the electronic address referred to in the offer.

- 22.5 The Contracting Authority reserves the right to vary quantities specified in the tender by +/- 100% at the time of contracting and during the validity of the contract. The total value of the supplies may not, as a result of the variation rise or fall by more than 25% of the original financial offer in the tender. The unit prices quoted in the tender shall be used.
- 22.6 Within 30 days of receipt of the contract signed by the Contracting Authority, the selected tenderer must sign and date the contract and return it, with the performance guarantee (if applicable), to the Contracting Authority. On signing the contract, the successful tenderer will become the contractor and the contract will enter into force.
- 22.7 If it fails to sign and return the contract and any financial guarantee required within 30 days after receipt of notification, the contracting authority may consider the acceptance of the tender to be cancelled without prejudice to the contracting authority's right to seize the

guarantee, claim compensation or pursue any other remedy in respect of such failure, and the successful tenderer will have no claim whatsoever on the contracting authority.

- 22.8 The performance guarantee referred to in the general conditions is set at 10% of the amount of the contract and must be presented in the form specified in the annex to the tender dossier. It will be released within 45 days of the issue of the final acceptance certificate by the contracting authority, except for the proportion assigned to after-sales service.

23. Tender guarantee

The tender guarantee referred to in Article 11 above is set at 20,000.00 EUR and must be presented in the form specified in the annex to the tender dossier. It must remain valid for 45 days beyond the period of validity of the tender. Tender guarantees provided by tenderers who have not been selected will be returned together with the information letter that the tenderer has been unsuccessful. The tender guarantee of the successful tenderer will be released on signing of the contract, once the performance guarantee has been submitted.

24. Ethics clauses and code of conduct

24.1 Absence of conflict of interest

The tenderer must not be affected by any conflict of interest and must have no equivalent relation in that respect with other tenderers or parties involved in the project. Any attempt by a tenderer to obtain confidential information, enter into unlawful agreements with competitors or influence the evaluation committee or the contracting authority during the process of examining, clarifying, evaluating and comparing tenders will lead to the rejection of its tender and may result in administrative penalties according to the Financial Regulation in force.

24.2 Respect for human rights as well as environmental legislation and core labour standards

The tenderer and its staff must comply with human rights. In particular and in accordance with the applicable basic act, tenderers and applicants who have been awarded contracts must comply with the environmental legislation including multilateral environmental agreements, and with the core labour standards as applicable and as defined in the relevant International Labour Organisation conventions (such as the conventions on freedom of association and collective bargaining; elimination of forced and compulsory labour; abolition of child labour).

Zero tolerance for sexual exploitation and sexual abuse:

The European Commission applies a policy of 'zero tolerance' in relation to all wrongful conduct which has an impact on the professional credibility of the tenderer.

Physical abuse or punishment, or threats of physical abuse, sexual abuse or exploitation, harassment and verbal abuse, as well as other forms of intimidation shall be prohibited.

24.3 Anti-corruption and anti-bribery

The tenderer shall comply with all applicable laws and regulations and codes relating to anti-bribery and anti-corruption. The European Commission reserves the right to suspend or cancel project financing if corrupt practices of any kind are discovered at any stage of the award process or during the execution of a contract and if the contracting authority fails to take all appropriate measures to remedy the situation. For the purposes of this provision, 'corrupt practices' are the offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or execution of a contract already concluded with the contracting authority.

24.4 Unusual commercial expenses

Tenders will be rejected or contracts terminated if it emerges that the award or execution of a contract has given rise to unusual commercial expenses. Such unusual commercial expenses are commissions not mentioned in the main contract or not stemming from a properly concluded contract referring to the main contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a payee who is not clearly identified or commissions paid to a company which has every appearance of being a front company.

Contractors found to have paid unusual commercial expenses on projects funded by the European Union are liable, depending on the seriousness of the facts observed, to have their contracts terminated or to be permanently excluded from receiving EU funds.

24.5 Breach of obligations, irregularities or fraud

The contracting authority reserves the right to suspend or cancel the procedure, where the award procedure proves to have been subject to breach of obligations, irregularities or fraud. If breach of obligations, irregularities or fraud are discovered after the award of the contract, the contracting authority may refrain from concluding the contract.

25. Cancellation of the tender procedure

If a tender procedure is cancelled, tenderers will be notified by the contracting authority. If the tender procedure is cancelled before the tender opening session the sealed envelopes will be returned, unopened, to the tenderers.

Cancellation may occur, for example, if:

- the tender procedure has been unsuccessful, namely where no suitable, qualitatively or financially acceptable tender has been received or there has been no valid response at all;
- the economic or technical parameters of the project have changed fundamentally;
- exceptional circumstances or *force majeure* render normal implementation of the project impossible;
- all technically acceptable tenders exceed the financial resources available;
- there have been breach of obligations, irregularities or frauds in the procedure, in particular where these have prevented fair competition;
- the award is not in compliance with sound financial management, i.e. does not respect the principles of economy, efficiency and effectiveness (e.g. the price proposed by the tenderer to whom the contract is to be awarded is objectively disproportionate with regard to the price of the market).

In no event will the contracting authority be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a tender procedure even if the contracting authority has been advised of the possibility of damages. The publication of a contract notice does not commit the contracting authority to implement the programme or project announced.

26. Appeals

Tenderers believing that they have been harmed by an error or irregularity during the award process may file a complaint. See Section 2.12. of the practical guide.
